**“Post-normal science and its ethical aspects -
Doctoral projects and other projects in the making”
The new workshop: 10-12 May 2010,
3rd circular**

Dear workshop participants!

With this letter I simply want to remind you all that the time of the Hamburg workshop is coming closer, and that you are scheduled to be a part of it.

Do you remember your action list? Here it is again:

Reminder - Your action list:

- Book your travel to Hamburg. Contact Ulrike to confirm.
- Fill out the registration form and mail it to the ASFPG by **15 March 2010**.
- Choose a title for your presentation and prepare an abstract, and / or the Power Point presentation. Send title and abstract to the ASFPG by **26 April 2010**.
- Read the distributed abstracts from other participants so that you are prepared for the discussions.

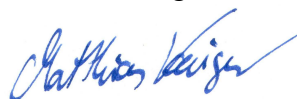

If you have not contacted Ulrike with your travel details, you need to do it now!

We have one change among our participants: Ingrid Bay-Larsen could not come after all since there appeared an unforeseen clash with another earlier obligation. She hopes to join us next year though. But we were lucky and a new interested participant appeared right in time: Jonas Lüscher from München. I am sure we all make up for a perfect group and we will have good discussions in Hamburg.
